Figma, Photoshop, Illustrator, Adobe XD, Framer, Sketch, Notion, Slack, Jira

Analytics & AI Tools:

Google Analytics, Microsoft Clarity, Hotjar, Google Play Console, Claude Code, ChatGPT, GitHub Copilot, Figma AI

Professional Experience

AI Product Designer & Founder

Salkom Design Studio, Puducherry | Jul 2025 – Present

- Founded independent studio delivering UI/UX, branding, and frontend for 3+ clients
- Owned brand identity, UI & full digital execution for Aura Elite Events — personally hired & directed a 3-person team
- Drove full digital marketing campaign and poster/video creative — sold-out event, 1,200+ tickets sold
- Designed UX for VertexEleven Gamehub, a fantasy gaming app, from 0→1
- Led UX research, wireframes, and UI systems across all studio products

UI/UX Designer

JRK Consulting Services, Chennai | Mar 2024 – Jul 2026

- Designed & built UI/UX for DigiGold, a live fintech savings app used for daily transactions
- Shipped 30+ live products, including an e-commerce app and website, for Pothys, GRT Jewellers & more
- Built responsive, high-performance UI in Flutter, Angular, Bootstrap & GSAP across live client projects
- Designed creative posters and exhibition collateral for company trade fairs, alongside UI/UX design and Flutter/Angular implementation for web and app products.
- Built reusable design systems & motion-interaction standards that reduced handoff friction across design and dev teams
- Ran usability testing and stakeholder reviews across every product cycle

AI PRODUCT WORK

UXORA — AI-Powered UX Learning Platform | *In Development*

- Designing and building UXORA — Claude Sonnet 5 generates live, per-user UX scenarios, with a static fallback bank for reliability
- Architected the skill-adaptive loop: EWMA skill scoring, weighted scenario selection targeting weak skills, XP/streak gamification, and global leaderboards
- Directed AI-assisted development of the Supabase Edge Function backend — Claude Haiku 4.5 scoring, Razorpay billing (test mode), and a completion-badge system

Independent Products — Live & Shipped

UNBOND — Employment Bond Tracker App | *Live on Play Store*

[View Live](#) ↗

- Built the full Flutter frontend for a live Play Store app — bond countdown, exit planning, documents, and a resignation-letter generator used by IT professionals in India.
- Directed AI-assisted development (Claude Code) for Firebase Auth, Supabase backend, and secure session handling, built to a stack and product structure I specified.
- Owned the complete product — UX, UI, and Flutter frontend — directing AI-assisted implementation with Riverpod and GoRouter; ₹149 lifetime IAP built, pending payment-gateway verification.

SDS Motion Forge — CSS Animation System | *Live on npm*

[View Live](#) ↗

- Built and open-sourced a production-grade CSS animation system with 600+ animations, built for developer adoption
- Reached 1,850+ organic npm downloads with zero paid marketing, driven by developer-first documentation and open-source adoption
- Architected a modular, framework-agnostic system across React, Angular, Tailwind, and Web Components, backed by CI/CD and zero-breaking-change releases

FrameStack PDF — Figma Plugin | *Live on Figma Community*

[View Live](#) ↗

- Developed a Figma plugin that exports multi-frame designs into a single PDF, reaching 35 users with zero marketing
- Built the export UX and frontend logic using the Figma Plugin API and jsPDF, optimized for large, complex file exports
- Owned product strategy end-to-end — introduced 4 outcome-based export presets and shipped 4 releases in 28 days post-launch

Achievements & Highlights

- Shipped UNBOND, a Flutter app live on Google Play Store, with a ₹149 lifetime IAP built and pending payment-gateway verification
- Solo-built 3 independent tools — UNBOND, SDS Motion Forge, and FrameStack PDF — spanning Play Store, npm (1,850+ downloads), and Figma Community
- Delivered 30+ live products for Pothys, GRT Jewellers, and Lalitha Jewellery across fintech, retail, and e-commerce
- Promoted from Trainee UI/UX Designer to Junior UI/UX Designer within 2 years at JRK Consulting Services

Education

Bachelor's Degree, Computer Science | 2018 – 2021

Rajiv Gandhi Arts & Science College, Pondicherry

Certifications

C-Tech (GWDC)

Meta — Principles of UX/UI Design

Google — Foundations of User Experience (UX)
